## DESIGN, APPROVALS & STANDARDS

We are dedicated to designing, developing and manufacturing products of the highest quality. Our products, where applicable, comply with the relevant British, European and International standards

As part of our environmental commitment to reduce water usage many of our platinum level products are now fitted with a Neoperl PCA Dual Core aerator.

This allows for early aeration at lower pressure giving users a full and pleasant water stream whilst limiting the flow at higher pressure to reducing water usage without reducing performance.

The **Cold Open** cartridge system ensures the mixer opens with cold water only, avoiding the unnecessary use of hot water to deliver energy savings.

The one way opening also prevents any potential clash with tiles or backboards.

With **Francis Easy-Fix** functionality, our stunning taps can be installed by hand, without any tools – quickly and easily.
