STH

40+ YEARS INDUSTRY EXPERTISE

A well-established organisation, and part of the Standard Hidráulica Group, with over four decades of manufacturing experience, we have provided some of the world's most iconic heating and plumbing parts.

Bringing a wealth of experience to the table, our long-standing presence in the market signifies a deep understanding of industry trends, customer needs, and evolving technologies.

We leverage this extensive knowledge to deliver sought-after products that stand the test of time, ensuring reliability and satisfaction for merchants and their installer customers.

THE CLEVER CHOICE

Loaded with advanced tech, packed full of features, and featuring outstanding quality finishes and cartridges.

Clever is the smart alternative to your existing taps and showers brands.

ADVANCED TECHNOLOGY

Thermostatic

Stability: the temperature remains constant.

Comfort: it automatically compensates for temperature changes. Safety: if the cold water supply is interrupted, the cartridge does not immediately allow hot water to pass through, preventing burns.

Precision: taps calibrated to 38°C. Exact temperature.

Accuracy: special synthetic cartridge, insensitive to lime (Ca).

Traceability: STH marking and date for greater control and tracking.

Our technologically advanced Clever shower heads and handsets are equipped with AIR Advanced technology, which reduces water consumption by at least 30%.

Environmental flow reduction system from 1l/min to 9l/min. Ideal for shower, basin, bath/ shower and sink mixers.

Our specially designed COLD TOUCH shower and bath-shower mixers prevents the mixer body from becoming too hot thereby protecting young children and senior citizens from scalding.

The 99% pure aluminium oxide discs inside these spindle/diverter cartridges last longer and allow 90° and 180° spindle rotation. A special thermal insulator protects against scalding when touching the mixer handle.

The term '1F', '3F' & '5F' refers to a multi-functional shower handset equipped with an array of distinctive spray settings, designed to elevate the showering experience.

This mechanism prevents the water temperature from involuntarily exceeding 38°C. Higher temperatures are only made possible by pressing the appropriate button on the handle. This is an ideal protection device for young children. Flow automatically shuts off if the cold-water supply is interrupted.

Warranty

Clever taps have passed the strictest quality controls as all are produced with the best materials and components in order to offer the comfort and durability.

Clever taps carry out the following rules: UNE19703/UNE-EN817/UNE-EN 816 /UNE-EN 1111, and its quality is guaranteed according to ISO 9001.

Clever mixers are subject to stringent quality control checks which enables us to offer a 5-year guarantee on our entire range.

Clever accessories are subject to stringent quality control checks which enables us to offer a 3-year guarantee on our entire range.
