# INNOVATIVE MULTILAYER PIPE

ULTIMATE DURABILITY AND FLEXIBILITY  
FOR HIGH-PRESSURE APPLICATIONS

STH Westco Multilayer System products are produced under rigorous quality control.

To date, the system has gained over 50 certificates such as NSF, DVGW, AENOR, WRAS etc. These international standards underline our technical and quality know-how and we provide a 25-year system warranty backed by an international insurance scheme.

**25** YEAR  
WARRANTY

# SYSTEM OVERVIEW

STH Westco Multilayer System offers a complete range of piping systems for the supply of cold and hot water.

The multilayer system range includes different types of pipes and fittings. They are all developed and manufactured under the same roof and therefore perfectly matched to each other.

The multilayer system range components offer complete reliability for the variety of applications they were designed for e.g. drinking water installations, radiator connections as well as radiant heating and cooling. The installation of the system is particularly simple and economical. From residential to commercial installations, STH Westco offers the perfect solution for every situation.

## Advantages

- Entirely corrosion-resistant
- A barrier to the permeation of oxygen and light
- High flexibility in bending and inherent stability
- Excellent hydrostatic stress performance
- Light in weight
- Smooth inner wall ensuring less pressure loss
- A life expectancy of up to 50 years

## Applications

STH Westco Multilayer System can be used in following applications:

- Hot and cold-water distribution
- Industrial pipeline system for foods, electrical and chemical transportation
- Condensed, filtered and mineral water pipeline system.
- High pressure air duct system
- Agricultural pipe line system

# STH WESTCO INSTANT HOT WATER TAPS

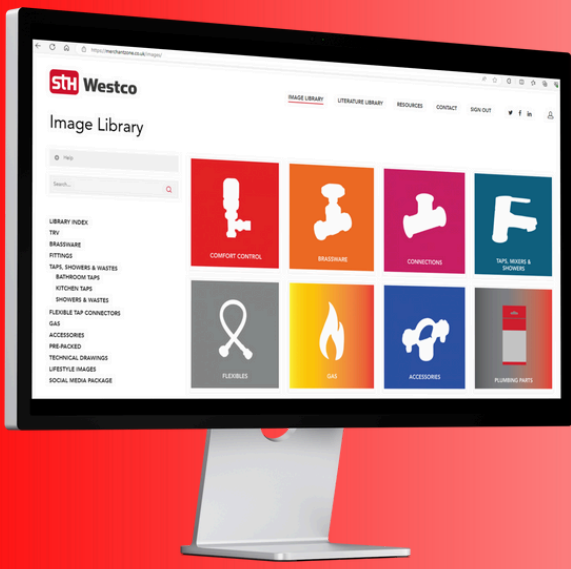

Designed to help plumbing and heating merchants meet the evolving needs of their customers, STH Westco, a leader in heating and plumbing products, has expanded its portfolio with a new line of instant hot water taps.

Offering rapid 60-second reheat for immediate hot water, these cutting-edge taps, are set to prove popular with installers and homeowners looking for something sophisticated and cost-effective in their kitchen designs.
